

Emergency Preparedness

The link below is to the Louisiana Citizen Awareness and Disaster Evacuation Guide, should you need more information that what is provided on this site.

<http://www.lsp.org/lcadeg.html>

Should you need assistance in evacuating, please call: 337-462-8911.

You may find it useful to print the tips on this site now so that in the event of a natural disaster or similar emergency you will be better able to safely sustain any unforeseen event that may occur.

The City of DeRidder is ready...

Even though hurricanes, flooding and other natural disaster are not everyday occurrences in our community, Mayor Ron Roberts values the benefits of being prepared.

When a hurricane watch or warning has been issued, stay near your television to get updates on KPLC TV7 (Channel 7 on Cable TV) or www.kplctv.com or listen to radio stations KVVP FM 105.7 for local information and instructions. The media will be informed of all pertinent information, including shelters that may be open, any evacuation orders, and/or school closings.

After a hurricane passes, listen to media before returning to the area, and upon returning to your home, check for damage before turning utilities back on. Be sure to have necessary repairs made before restoring utilities.
